SACRED SCIENCE

ANCIENT ROOTS. MODERN RITUALS.

At Rose & Co., our formulations are crafted as close to nature as possible. Each product is created using thoughtfully sourced botanical ingredients, selected for their integrity, efficacy, and gentle alignment with the skin.

We honour both traditional herbal wisdom and contemporary botanical research, blending time-tested plant extracts with carefully chosen actives to create formulations that support the skin's natural function without excess or unnecessary complexity.

Our packaging reflects this same care — refillable glass bottles, reclaimed cotton pouches and unbleached kraft boxes — chosen for their longevity and low environmental impact. Powered primarily by solar energy and rain-harvested water, our workshop operates with a mindful, low-waste philosophy. Botanical remnants are returned to the soil, closing the loop with respect for the land that sustains us.

Born from a lifelong connection to nature and the quiet art of botanical alchemy, Rose & Co. draws inspiration from heritage roses and the landscape of the Shoalhaven River. Each batch is handcrafted in small quantities, balancing traditional technique with considered formulation. More than a product line, Rose & Co. is an expression of reverence — for the earth, for ritual, and for the simple daily acts of care that restore connection.
